1 Applicant

Name :

Corporate ID :

Address :

Street :

Town/City :

State & Postcode :

Telephone :

Email :

Proof of applicants identity must be provided, e.g. a recent extract from the relevant official corporate trade registry or equivalent.

The above registered party hereby applies to be granted ISP status and be listed as such with ISNIC. The ISP agrees to the following terms and conditions of the provision of DNS hosting services to registrants of .IS domains.

2 The ISP's obligations

- 2.1. The ISP facilitates the technical management of .is domains on behalf of their registrants, according to the ISNIC terms, conditions and technical delegation requirements.
- 2.2. The ISP is listed as the domain's technical and zone contact. The ISP shall provide at least two name servers to hold and service the zones. These name servers shall be managed by the ISP and registered with ISNIC listing the ISP as their technical contact.

The ISP agrees to the following:

- 1. to configure their .is domain hosting according to the ISNIC technical requirements for domains and hosts.

2. to immediately remedy any problems that appear with the ISP's name servers and take the appropriate steps to prevent reoccurrence of said problems.
3. to promptly remove from their name servers domains that have been redelegated elsewhere when informed of such re delegation by ISNIC.
4. to ensure that their name servers are configured correctly for accessibility and reliability and according the relevant RFC's.
5. to host at least 10 .is domains on their name servers at any time.

2.3. The ISP is listed on ISNIC's web based list of service providers. ISNIC directs customers searching for domain services to this list.

2.4. The following information on the ISP will appear on the ISNIC web. Note that all fields are mandatory:

Name :

Street :

Postal code :

City :

Country :

Phone :

Website :

Email :

2.5. The following contacts must be registered and provided for communication between ISNIC and the ISP. Please only list NIC handles issued by ISNIC.

Administrative :

Technical :

Billing :

A monthly report is sent to the ISP detailing the domains delegated to the ISP's name servers, and their registration status.

Email :

Two or more nameservers: **(Must be administered, controlled and owned by the ISP)**

Nameserver 1 :

Nameserver 2 :

Nameserver 3 :

Nameserver 4 :

3 ISNIC services to the ISP

3.1. The ISP has access to the ISP portal on the ISNIC web. The ISP connects to the portal using the technical contact NIC. Using this interface the ISP can manage their .IS delegations.

4 Service Fee

4.1. The ISP shall pay a yearly service fee to ISNIC according to the appropriate tariff. See www.isnic.is/en/payments/.

5 Confidentiality

5.1. The ISP shall not disclose directly or indirectly to a third party any information relating to this agreement.

5.2. The ISP may not assign any of its rights or obligations under this agreement to a third party, without prior written consent of ISNIC.

6 Term and termination

6.1. The ISP can terminate the ISP status at any time. No refund of the ISP service fee is made. The termination shall be made in writing.

6.2. If the ISP fails to fulfil its obligations towards ISNIC or the registrants of the hosted domains, and if the ISP does not rectify such failures within 30 days following a written notice from ISNIC, ISNIC will terminate the ISP status of the applicant.

6.3. If the number of .IS domains delegated to the ISP's name servers falls below 10 the ISP status of the applicant terminates automatically.

The domain's registrant or legal representative must sign this form.

Signature of authorised signatory:

Signature :

Name of signee :

Place / date :

ISP name :

ID nr. :

Proof of signatory's identity must be provided, e.g. copy of a valid passport, identity card or driving licence.

Send the completed form by email to isnic@isnic.is.
